

06/09/11 - Custom Seed Mixing

Although we offer a large variety of standard seed mixes that cover most applications, sometimes a custom blend will be most suitable for your project or site.

We can custom blend pasture, native, turf, erosion control and reclamation, wildlife or wildflower mixtures according to your specifications or needs. Each mixture will be based on application, height, climatic conditions, and other considerations specific to your requirements.

Custom seed mixes can be blended in any quantity
