

Canadian Mountain Gypsum

GRANULATED

Certified Organic 100% Natural

Calcium Sulfate Dihydrate (Gypsum) $\text{CaSO}_4 \cdot 2\text{H}_2\text{O}$:	85%
Calcium (Ca):	22%
Sulfur (S):	16%

Helps to create and build a biological soil. Creates a balanced microbial soil with the addition of calcium sulfate.

Benefits:

- Natural source of calcium and Sulfur
- Help with water retention and drainage
- Promotes microbial activity
- Helps reduce leaching
- Reduces fruit shrinkage and aids in flavor production
- Help reduce blossom end rot
- Promotes cell wall integrity
- Easy to apply through irrigation systems
- Ultra fine grind
- Reduces internal brown spot
- Reduces nitrogen loss to the air
- Help to increase nutrient availability in the soil
- Excellent for sodic soils
- Does not effect soil ph
- Helps with overwintering

It is always best to soil sample. A balanced soil that includes good organic matter, plenty of available phosphate, will make gypsum that is applied to the soil much more effective.

Available in bulk tote bags and 50 lb bags.

Store in a dry place and away from children.
